BASICS

TERMS OF SALE: All prices are FOB Clinton, SC. Net 30 days from date of shipment. All prices are list and subject to change without notice. Interest of 2% per month will be assessed on past due invoices. Possession of price list does not constitute authority to purchase or sell products herein.

TAXES: All applicable taxes are extra. If a client is tax exempt please provide tax certificate.

ORDERING: Orders must have all pertinent information provided before they will be processed and entered including model numbers, quantities and finish, laminate and fabric selections where appropriate. Please provide a requested by date, or not to ship before date on your order.

WARRANTY: All items are warranted for 10 years unless otherwise stated. Warranty is for initial purchaser and only valid as long as the product is owned by original customer. The warranty, which begins at date of manufacture, covers defects in materials and workmanship found during the normal usage of product during the warranty period. Revolution Products will at it's option repair or replace the defective product with a comparable component or product. Warranty does not cover any "Customers Own Material" used in manufacture. Except as stated above, Revolution Products makes no express or implied warranties as to any product and in particular makes no warranty of fitness for any particular use. At Revolution Products option, product repair, or replacement is the customer's exclusive remedy for any and all product defects.

BIFMA AND ANSI TESTING: All products offered by Revolution Products meet or exceed applicable BIFMA and ANSI testing standards.

NEW ACCOUNTS: New Accounts can only be established with the approval of a Revolution Products representative. New accounts will be subject to special credit reference requirements and deposit terms before they are approved.

BASICS SHELVING

WOOD SHELVING SPECIFICATION

General Specification: Shelving is to be constructed using the Starter and Adder concept of assembly. All parts of a shelving unit come complete with washer, nut and bolt hardware, which allow for easy knock down (KD) assembly. All parts shall be constructed from 11 ply solid core material. Veneers are to be 1/16" thick Grade "A" red oak.

End Panel: Constructed from 1" thick 9 ply solid core, veneered 2 sides grade "A" oak yielding a total of 11 plies. Vertical, top and bottom edges banded with 1/4" external hardwood edging, edges to be eased. Inside face of panel to be drilled with two vertical rows of holes for shelf adjustment on 32mm centers (1 1/4"), pin holes 5/16" diameter x 3/8" deep. Panel to be routed vertically on the inside, inset 1/4" from the back of the panel to accept back panel for single faced shelving. A vertical route 1/4" deep x 5/16" wide will be routed vertically on the inside of the panel at the center to receive the back panel for double faced shelving. Top and bottom of panel will be pre-drilled and fitted with threaded inserts to accommodate for a 5/16" threaded bolt, nut and washer assembly.

Mid Panel: Constructed from 1" thick 9 ply solid core, veneered 2 sides grade "A" oak yielding a total of 11 plies. Vertical, top and bottom edges are banded with 1/4" external hardwood edging, edges to be eased. Panel to be drilled with vertical rows of holes on both sides of panel. Shelf adjustment on 32mm centers (1 1/4"), pinholes 5/16" diameter x 3/8" deep. Two sides of panel will be pre-drilled to accommodate for 4" long x 5/16" threaded hex head bolts, nuts and washer assembly. Panel to be routed vertically on both sides inset 1/4" from the back of the panel to accept back panel for single faced shelving. A vertical route 1/4" deep x 5/16" wide will be routed vertically on both sides of the panel at the center to receive the back panel for double faced shelving.

Canopy Top: The cornice top is constructed from 1" thick 9 ply solid core, veneered 2 sides grade "A" oak yielding a total of 11 plies. The front edge shall receive a 1/4" thick solid oak edge band on single faced units and the canopy shall be banded on the two outside edges with a 1/4" solid oak edge band. The underside of the canopy is to receive a 1" thick x 1 3/4" high cornice frame. The front and back faces are to receive a Grade A oak veneer. The front and back cornice rails are routed on the inside at each end to allow for connecting a 1" thick x 1 3/4" high spanning member which is glued and screwed to the front and back cornice rails. The spanning members will be predrilled to allow for assembly bolts to pass through and fasten onto the end and mid panel. Additional 3/4" thick cleats are secured to the inside of the top of the cornice to allow for connecting the canopy top to the cornice frame with mechanical fasteners. The box frame construction of the cornice adds additional structure to the shelving unit. The cornice is attached to the end and mid panels through the use of 4 each 5/16" threaded bolts with washers.

Base Frame: Base front and back shall be constructed from 1" thick x 3 1/2" high 9 ply solid core, veneered in grade "A" oak on outside exposed faces. The base front will be routed on the inside at each end to allow for 1" thick x 3 1/2" wide spanning cleats to be glued and screwed to the front and back base members running the width of the panel to form a box. The two 1" thick parallel spanning members will be pre-drilled to allow for assembly bolts to pass through and fasten onto the end or mid panel. The base shelf or shelves will sit on the base front and fasten into the base spanning members using 2" long #8 wood screws. For single faced shelving the back of the base shall be routed to receive the back panel. The base frame is secured to the end and mid panels through the use of 5/16" threaded bolt and washer assemblies.

BASICS SHELVING

Base Shelf: Base shelf is constructed from 1" thick 9 ply solid core, veneered 2 sides in grade "A" oak yielding a total of 11 plys. Front edge of the shelf is to be banded with 1/4" external solid oak edging, edges to be eased.

SHELF SUPPORT PINS: Bronze metal pins 5/16" diameter x 1" long with 5/8" diameter flange are to be used for shelf support. Each pin shall recess 3/8" into end and mid panels, the shelf nests over the flange of the shelf pin to lock the shelf support pin into place.

Adjustable Wood Shelves: Shelves shall be constructed of 1" thick 9 ply solid core, veneered 2 sides Grade "A" oak veneers yielding a total of 11 plys. Front edge of the shelf is to be banded with 1/4" external solid oak edging, edges to be eased.

Adjustable Wood Picture Book Shelves: Shelves shall be constructed of 1" thick 9 ply solid core, veneered 2 sides Grade "A" oak veneers yielding a total of 11 plys. Front edge of the shelf is to be banded with 1/4" external solid oak edging, edges to be eased. Dividers are 1/4" thick plywood.

Wood Periodical Shelves: Shelves shall be constructed of 3/4" and 1" thick solid ply core, veneered 2 sides Grade "A" oak veneers. Front edge to be banded with 1/4" external solid oak edging, edges to be eased. Back edge of shelf shall be veneered. A 1 1/8" high retaining lip shall run the length of the leading edge of the periodical shelf to support magazines and newspapers.

Backpanels: Backpanels shall be 1/4" stained plywood, stained one side for single faced shelving and both sides for double faced shelving.

Revolution Products reserves the right to make changes in the specifications at any time without notice.
